BRANDS · LAUNCHES · AWARDS · PRODUCTIONS

The right atmosphere says something.

DJ, sound and lighting for brand launches, awards, fashion, retail activations and carefully considered commercial events. We plan around the room, the running order and the people in it, shaping the atmosphere from first arrival through every cue, reveal and celebration.

- Brand launches
- Awards
- Fashion
- Retail activations
- Automotive reveals
- Corporate occasions

PEOPLE
CREATE
GREAT
ATMOSPHERES

Build the atmosphere around the event.

Arrival music, presentations, reveals, background sets, microphones, lighting changes and live DJ sets can all sit within one clear plan. We shape the sound and atmosphere around each part of the event as it unfolds.

Brand & product launches

Set the tone from arrival, build anticipation around the reveal and carry the room into the celebration with music, sound and lighting shaped around the launch.

Awards & gala events

Arrival music, microphones, presentation cues, walk-ups and the celebration afterwards, all connected by one clear running order.

Fashion & editorial productions

Music and atmosphere for shoots, content days, presentations and creative productions, working with the rhythm of the set and the people creating it.

Retail & shopping-centre activations

Music, sound and lighting for in-store launches, customer events, seasonal campaigns and public-facing activations, bringing energy and presence to the space.

Automotive & product reveals

Build anticipation for the reveal, give key cues the right impact and carry the atmosphere through with timed music, lighting and clear sound.

Corporate & client occasions

Create an easy arrival, a warm social atmosphere and a natural lift into the celebration for client receptions, company milestones and networking events.

GREAT
ATMOSPHERES

One team. One clear running order.

We work comfortably alongside event agencies, production companies, venue teams, photographers and AV suppliers. Access, timings, technical requirements and cues are agreed in advance, keeping every part connected on the day.

Venue access & setup
Venue access, setup position, sound requirements, power, timings and cue points agreed in advance.

Presentations & microphones
Background music, presentations, microphones and key transitions follow the agreed running order.

Atmosphere that develops
Music and lighting can move with the event, from arrival atmosphere into a stronger social or party finish.

Clear communication
We know who is calling the cues and who to speak to if the schedule changes on the day.

Give every moment its place.

Where an event includes a host, awards, presentations or a timed reveal, music can guide the programme from one moment to the next. We plan microphones, music cues, background levels and the handover into the social part of the event around your running order.
