COMPANY CHRISTMAS PARTIES

Bring the team together. Celebrate the year.

A company Christmas party is a chance to thank people, celebrate what the team has achieved and enjoy time together away from work. We mix live, take requests and build a festive soundtrack that brings the room together from the first arrival to the final song.

Music for the whole team

Different ages, tastes and personalities come together. We move between singalongs, party favourites, requests and the songs getting the strongest reaction.

Make it your team's party

Guests can request songs from their phones or come over and speak to the DJ, helping shape shared moments everyone feels part of.

A festive atmosphere

Warm lighting welcomes everyone into the room, with more colour and movement introduced as the celebration builds.

Live mixing that follows the room

Your plans, favourite songs and team requests give us the direction. From there we mix live, read the dancefloor and keep the music moving with the people in front of us.

Festive, polished and full of energy.

WELCOME DRINKS TO LAST SONG

Build the celebration.

A great Christmas party has its own rhythm. People arrive, catch up, enjoy dinner, celebrate achievements, hear the speeches or awards and then move together into the party. We shape the music and lighting around each part of the evening.

01

Set the tone

Welcoming background music, warm lighting and a festive atmosphere set the tone while everyone arrives, gets a drink and catches up.

02

Lift the energy

After dinner, speeches and awards, familiar songs come forward, Christmas favourites join the mix and the lighting builds with the energy in the room.

03

Bring everyone together

Requests, reactions and the mix of people in the room create shared moments across teams, departments and friendship groups.

04

Finish on a high

We build towards a final song everyone can get behind — a big shared finish that sends the team home smiling.

The soundtrack of Christmas, shaped around your team.

Christmas classics bring the singalongs, nostalgja and unmistakable festive moments people expect, while party favourites and team requests keep the dancefloor full.
