SCHOOL & COLLEGE PROMS • DJ • SOUND • LIGHTING

A prom night that feels special.

DJ, sound and lighting for school and college proms across Dorset, Hampshire and the South Coast. We work with your team and venue to plan the timings, music, announcements and technical setup — then mix live around the students in the room as the celebration builds.

Give them a night worth dressing up for.

Give them the celebration.

Give your team a clear plan.

A prom brings students, staff, a venue, catering, photographs, awards, transport and entertainment together in one evening. We keep the music, sound, lighting and key timings connected to the wider plan, with one clear point of contact for your team.

Plan it with the venue

Access, setup position, dancefloor, guest numbers, finish time and venue requirements are agreed before the night, so the production sits naturally in the space.

Build around your timings

Arrivals, dinner, photographs, awards, speeches and the move onto the dancefloor can all have their moment, with sound and music cues ready when they are needed.

Start with the students

Student favourites and requests give us the direction. We mix live, read the room and build the set around the songs that bring the students together on the night.

Know who gives the nod

We agree who is leading the event and who can confirm changes, announcements or key moments, keeping communication straightforward throughout the evening.

Let the night build naturally.

A prom has its own rhythm. We shape the music and lighting around each stage of the evening, letting the atmosphere grow from the arrivals and formal moments into the celebration.

Set the tone

Welcoming music and polished lighting create a sense of occasion while students arrive, meet friends and take photographs.

Give the moments space

Background music, announcements and microphones give dinner, presentations and awards the right space and clarity.

Bring everyone together

As the formal programme finishes, the music moves into the dancefloor set, the lighting lifts and the room comes together for the party.

Finish together

We build the final part of the night towards a shared ending, working to the venue finish time and the plan agreed with your staff team.

One night. Every detail in place.

- Setup before guests arrive
- Coverage for the room
- Announcements heard clearly
- Atmosphere that develops
