WEDDING PLANNING

A brilliant wedding day starts with a *clear plan*

We bring the key details into one clear plan covering sound, speeches, music, timings and setup from the daytime moments through to the evening party.

Before the wedding

We talk through your venue, speech locations, first dance, setup position, lighting and timings. Where it adds value, a venue meeting can also be built in.

Start with you

Your first dance, favourites, meaningful songs and music boundaries give us the direction for the celebration.

Plan for the people in the room

Guest requests add personality while we keep the music flowing around the whole room.

Build the energy through the night

We mix live and shape the pace in real time as the room opens up.

Thoughtfully planned from daytime moments to the final song.

DAYTIME SOUND & EVENING ENTERTAINMENT

From clear speeches to a packed *dancefloor*

Wireless microphones, room coverage and managed levels keep speeches, announcements and key moments clear during the day, before the celebration builds into your first dance and a full evening dancefloor.

Daytime sound & speeches

Qualified sound and lighting engineers manage microphone setup, system levels and room coverage so the moments everyone wants to hear feel clear, calm and properly looked after.

Your first dance opens the celebration

That first moment is intimate and unhurried. From there, guests join you, the room opens up and the energy builds naturally into the evening party.

WIRELESS MICROPHONES • ANNOUNCEMENTS • FIRST DANCE • DJ & LIGHTING • ALL-DAY ATTENDANCE AVAILABLE

Everything working smoothly behind the scenes.
